Ambulatory patients eating in hospital dining hall

Tray delivery on the fly.

The UGR-A is the ration of choice for the hospital, but they were not made available until May.

Ambulatory patient tray

A large cardboard box filled with various items. In the foreground, there's a box of Benders premium paper cups (25ct/8.9fl.oz) with a blue and white design. Next to it is a box of Medical Supplements, labeled 'US-Army' and 'Germesheim'. To the right, there's a box of Solo plastic lids (TL38R) and a box of Solo plastic lids (TL38R). In the background, there are boxes of cereal, including 'Breakfast' and 'Presto', and a box of Solo plastic lids. The box is labeled 'STOCK IN COLD CEREAL SECTION' and '1988'.

Full length of kitchen tent.

Storage & work area of kitchen

Boiling, frying, baking!

The cooks, the grill, the work!

UGR H&S rations

Sanitation center

Pot and pan washing in the desert

Refrigeration and fuel

Hospital water system

Looking down a
chemically protected
corridor of the hospital

Endless supply of operational rations

Never ending convoys

This soldier deserves the best we can offer.

Dietitian and 91M serving diets

Injured soldier fed on the ward
